EXPERIENCE

SIDE HUSTLE NIGERIA LIMITED
Frontend Mentor Assist Volunteer   **2022-Present**
- Assisted frontend development students in understanding and implementing web development concepts and technologies, such as HTML, CSS, and JavaScript.
- Assisted students in debugging code and troubleshooting issues.
- Participated in team meetings and discussions to continually improve the curriculum and teaching methods.

FEATURED PROJECT

AI PAL ↗
A chatgpt clone using the OpenAI API. This project involved integrating the API into the frontend of the application, as well as designing and implementing the user interface and user experience. Through this project, I gained experience in API integration, as well as the design and development of interactive chatbot applications.
Live Preview at https://chat-gpt-clone-ruby.vercel.app/
   Built with HTML, CSS, Javascript, Nodejs, Express, API

EDUCATION

LADOKE AKINTOLA UNIVERSITY OF TECHNOLOGY   **OGBOMOSHO, NG**
